Patient:								
Date:	Score	0 hr	2 hr	4 hr	6 hr	8 hr	10 hr	12 hr
Pulmonary								
Normal	0							
Minimal--slight dyspnea	1							
Moderate -- respiratory compromise, tachypnea, use of accessory muscles	2							
Severe -- cyanosis, air hunger, extreme tachypnea, respiratory insufficiency or resp. arrest	3							
Cardiovascular								
Normal	0							
Minimal - tachycardia, general weakness, benign, dysrhythmia, hypertension	1							
Moderate -- tachycardia, hypotension	2							
Severe -- extreme tachycardia, hypotension (no palpable pulse, SBP < 80 mmHg), malignant dysrhythmia / cardiac arrest	3							
Local Wound								
Normal	0							
Minimal -- pain, swelling, ecchymosis, erythema involves, less than half of extremity and may be spreading slowly	1							
Moderate -- pain, swelling, ecchymosis, erythema involves less than 1/2 of extremity and may be spreading slowly	2							
Severe -- pain, swelling, ecchymosis, erythema involves most or all of one extremity and is spreading rapidly	3							
Very Severe -- pain, swelling, ecchymosis, erythema extnds beyond affected extremity, or significant tissue slough	4							
Hematological								
Normal	0							
Minimal -- PT <20s, aPTT < 50s; platelets 100, 000-150,000/uL	1							
Moderate -- PT 20-50 sec, aPTT 50 - 75s; platelets 50,000-100,000/uL	2							
Severe -- PT 50-100s, aPTT 75-100s; platelets 20,000-50,000/uL	3							
Very Severe -- Unmeasurable PT / aPTT; spontaneous bleeding, platelets < 20,000/uL	4							
Neurological								
Normal	0							
Minimal - apprehension	1							
Moderate -- chills, weakness, faintness, ataxia	2							
Severe -- lethargy, seizures, coma	3							
Gastrointestinal								
Normal	0							
Minimal -- abdominal pain, tenesmus	1							
Moderate -- vomiting, diarrhea	2							
Severe -- repetitive, vomiting, diarrhea, or hematemesis	3
